BILL C-27

Waste Management Organization.
Advisory Council Representative.

COU-2001-07

12th June 2001

Dear Council,

I would like to respectfully submit my name for inclusion in the Advisory Council, providing assistance to the Waste Management Organization, under the federal legislation BILL C-27.

Please find enclosed my most recent resume and letters of reference for your perusal.

I believe that my expertise and ability in the field of nuclear generation and waste management would represent the Municipality well, with regards to securing our long term needs and goals to benefit the citizens of not only this, but other areas, as we move towards the safe long term disposal of nuclear waste.

Yours Faithfully,

Sandy Donald.
