Public Information Municipal Strategy

CSC-SRD-2004-01
14th December 2003

Dear Committee,

Could you please have the following item discussed at your next convenient Corporate Services Committee meeting?

Public Information Strategy

As we move forward with more openness in local government, I would like to suggest that we start to disseminate information to the citizens in a logical consistent front.

To this end, I would like to propose formally, that we produce a report, to either be an insert in the local papers, or to go out in our tax bill, every quarter.

This report should have the state of the Municipality, in both financial and other terms. It should show where we are in our strategic plan, It should show what we intend to do, what successes we are having and also what challenges we are facing.

The make up of such an insert is one we can discuss over the next three months, but I would like to see it initiated with the launch of our strategic plan.

I believe that by providing information like this, on a purely factual basis, we will engage our people within the community, provide them with much needed information and provide leadership on a going forward basis.

I appreciate you taking the time to include this in your agenda and look forward to your reply

Yours Faithfully,

Sandy

Deputy Mayor Sandy Donald.
