## **Emergency Services Department Committee Wage Parity with Town Employees**

**Ref. No. EMS-2001-06**

23<sup>rd</sup> March 2001

Dear Corporate Services Committee Members & Council,

At our meeting this month, I was actioned to ask for a letter of support from you in regard to the issue of wages for our Volunteer Firefighters.

Both Firefighting Departments recognize the need to have good fiscal management and to keep within budgets and it is not the intention of these departments to do otherwise.

The committee and myself in particular, asks that, when wages raises are being considered for other Municipality employees, that the Firefighters be given the same percentile raise as the other employees within the Municipality, upon conclusion of successful contract negotiations.

We believe this is reasonable and will facilitate the ongoing good relationship we have with our Volunteer Firefighters.

Yours Faithfully,

Sandy
