## Web Cams Kincardine and Tiverton

TC-SRD-2004-01  
16<sup>th</sup> December 2003

Dear Committee,  
Could you please have the following item discussed at your next convenient Tourism Committee meeting?

### **Kincardine and Tiverton Web Cams.**

As was noted in the some reports lately, the Municipality of Kincardine is a relatively unknown destination for tourism. I am sure you believe, as I do, that this has to change, if we are to bring major tourism dollars to this area.

I would like to suggest that we look at placing initially, three web cams in the area. These web cams would allow people from outside the area to watch our beautiful sunsets, events in the downtowns and also our interesting weather during the winter months, over the Internet. Students, business people and tourists alike, could use these cameras in judging the conditions of the roads up here and allowing them to make travel arrangements in confidence. We might also be able to use these cameras if placed properly to monitor for and perhaps discourage vandalism in our downtown cores.

The cameras should be weather enclosed and have an approximate horizontal travel of 270 degrees, tilt of 60 degrees and a zoom factor of four to nine.

These cameras could be placed in the following locations:

1. Tiverton downtown on the South East building corner, up high, so that the camera could look down South bound Highway 21, County road 15 and East bound Highway 21.
2. Kincardine Downtown at the old bank of Montreal building, so that it can face up and down Queen St and also directly down Harbour St.
3. Kincardine Downtown on the South West corner of the old post office, so that it looks out over the lake via Queens lookout and can pan into the park, showing any events going on there.

I hope these ideas might help us attract people to our community and please don't hesitate to let me know if you need them further explained.

I appreciate you taking the time to include this in your agenda and look forward to your reply

Yours Faithfully,

**Sandy Donald**

Deputy Mayor Sandy Donald.
